Student Discounts are available

The format for the 2018 Spring Intensive is designed for participants to look through the lens of equity and have a mindful and heartfelt real-life experience.

Highlights of the Spring Intensive:

Groundwater In this lively and participatory presentation, facilitators will use stories and data to present a perspective that racism is fundamentally structural in nature. By examining characteristics of modern-day racial inequity, the presentation introduces participants to an analysis they will find immediately helpful and relevant.

Strategies for Leadership, Transformation and Equity: Using the Tools of the Community-Based Participatory Research Approach CBPR/A.
